The selection of Victor D'Souza, who is a native of Mysore by birth may be approved, as also the proposals and Govt may intimate to him accordingly. It seems unnecessary and undesirable to define the scope of the scholar's study and research, provided they relate to one of the subjects described in the

NOTE—Contn sheet

Notify, e.g. "Practical Advanced Chemistry, Inorganic and organic." Why should we unnecessarily curb the bent of mind of the scholar.

Dr Lehmann may be made a member of the Committee & the Inspection Guard may himself write to Sri William Ramsay and Dr Travers on behalf of the Mysore Govt and ask them to give all necessary advice to the young man.

I am afraid the Committee's recommendation that accumulated savings of the Fund may be utilised for training young men [illegible] employed or under Govt with a view to improving the technical work of [illegible] is not in consonance with the object of the scheme sanctioned in the G.O. of 30 May 1908 for utilising the proceeds of [illegible] Ramadan Dass Charities Fund. The better course seems to be to utilise vacant scholarships in any one year to increase the number of

Note—Only one fact

GPB—1000—8-6

421-57 6

I find that the candidate selected has passed only in the 3rd class in Physics He is no doubt spoken of by the Principal of his College as having taken a "most intelligent interest in experimental science generally and in the laboratory work of the course", but for work in the higher branches of Chemistry should not a pass in the 2nd class at least be insisted upon as a test? In order that they may profit by pursuing their studies in the higher branches of science and be of use to the country on their return, none but candidates about whose aptitude for the higher studies of the subject chosen by them there is every assurance should be selected The State has in the past spent large sums on young men sent out to study Electricity and get a practical training in it but none of them has been pronounced to be fit to take charge of the more responsible work connected with the Cauvery Power Scheme The cause is to be traced to the fact that candidates were selected without regard to their general education or special aptitude for the subject in which they were to be trained It should be our endeavour to select the best possible material forthcoming, and if in this connection the Committee have reason to think that the restriction made in the Rules that the candidates should be Mysoreans or those that have passed out of one of the colleges in Mysore has limited their

field of choice I believe Government would be glad to modify the rule and make it open to candidates who have taken a degree in the Madras or Bombay Universities to apply It will be noted that the candidate whether from Mysore or outside will have to bind himself to serve the State for 5 years after his return from his studies and in this direction the State will reap the fruits of his studies in the higher branches of science and get some return for the outlay incurred

If in the light of these observations the Committee think there are sufficient grounds for re-considering their recommendation in the present case and for suggesting modifications in the rules prescribing qualifications for applicants for scholarships, Government, I believe, would be prepared to revise the Rules

I have had the advantage of a talk with Dr Lehmann on the subject selected He thinks that 2 years is not sufficient to acquire a practical knowledge of advanced Chemistry He thinks also and I agree with him that we should select a subject in which there is scope for practical work after a candidate's return to Mysore I believe the object of the scholarship is to promote scientific Research and technical education but from the note which Dr Lehmann has since furnished me it will be seen that the course the candidate has selected, presuming that he is sufficiently equipped for taking

up higher studies can only make him fit for a teacher of Chemistry in one of our colleges

I would refer the matter to the Committee with a view to the Rules being reconsidered and provision made for more definite instructions being given for securing the object with which the scholarship was instituted

Scholarships in Chemistry for study in Europe

When sending a student to Europe on a scholarship the training sought for should in my opinion, be of such nature as cannot especially be given a higher general education to that an individual which, though very valuable in itself, can not be turned to direct use

If this be the case the only purpose for which a general education in chemistry would be justified would be to fit the student for some appointment in which he would teach chemistry. The Manitoba College the Central College and the future Indian Institute of course might provide employment in this direction

The industries in which a chemist might find profitable employment in Ontario at present are very limited sugar making dyeing in the cotton and woollen mills, mining and prospecting and all of these except Government Laboratories support possibly a person analyst might find employment to make a living for many of these an analyst is required But a good analyst must have also had a good theoretical knowledge of chemistry as otherwise he is liable to make grave mistakes

As there are so few avenues for a Chemist in Ireland at present it would I expect not be wise to specialise any research work as one out of the questions under this course is intended to at least third year. All that can be done in the two years is to get a practical knowledge of ordinary analytical chemistry with enough of general Inorganic and Organic chemistry to leave an intelligent student to the subject of analytical chemistry.

21/11/07

Submitted to His Highness

Two scholarships are to be granted annually under the Rules published in Notification No G 5420/ G M 11°-05-2 dated 3rd May 1906 regulating the grant of scholarships for Scientific Research and Technical education from the Dinod r Dass Charities Fund

A

The Inspector General of Education and Secretary to the Committee for reporting on the merits of the applicants for 1906, recommends Victor S D'Souza for the grant of one scholarship for 1906, for studying Practical Advanced Chemistry, organic and inorganic It is reported that no eligible candidate is available for the other scholarship

is under disposal

Mr Bhabha also makes certain suggestions about further defining the scope of the student's studies

My note to the Councillors dated 12th May 1907 contains my opinion concerning the candidate selected He has passed only in the 3rd class in Physics in the B A degree examination, and for work in the higher branches of Chemistry I think that a

Office note 7/11/07

pass in the 2nd class at least should be insisted upon I am therefore unable to recommend the grant of the scholarship to the candidate now selected

With a view to secure the best available material I think the rules require to be some what revised Both the Councillors agree with me in this opinion

In these circumstances, I would recommend that the matter may be referred to the Committee for re-consideration and submission of proposals as regards revision of rules for the selection of candidates

Submitted to His Highness

I would again beg respectfully to bring to the notice of His Highness that we should not fail to take advantage of this opportunity to apply the Damodar Dass scholarships to the best possible advantage in the interests of the country What we want most now is men who have received the highest training which either England or America can give in Mineralogy, Metallurgy and allied subjects, in view of the rapid development that is going on in working the mineral resources of the country We want again men who will be able to work the Cauveri Power Scheme and though we will not be able to dispense with the services of American experts for many years to come, it would be an advantage to have ready to hand men who have received a thorough training in Electricity and Electric Engineering We have seen the effects of selecting young men who have shown no special aptitude for this kind of work simply because they happened to be Mysoreans I think if the rules are modified as noted below we should get the right

sort of material and the scholarshipswill have been properly applied

For convenience I send the existing printed rules in question and show in a slip attached what the amendments are

89.

I have no objection to the Rules being reconsidered with a view to their amendment on the lines indicated by the Dewan While we are about it I think that it would be well to devise some arrangement for testing the suitability of candidates for practical work I believe that a suggestion was put forward some time ago that candidates for the electrical Dept should before being sent abroad be required to undergo a period of probation in the Railway workshops It is only after a candidate has been through some such probation that anything can be known of his aptitude for practical work Mr Gibbs & Captain Traill would probably be able to give useful advice on the point

C | Serial No

G.O No 307-8 Dy 8/7/07
states that the Committees Recommendation for the grant of a Scholarship to Mr. D Souza cannot be sanctioned as he has passed the B.A Exam^n in Physics only in the 3rd class and refers to the Committee, consisting of the 8 officers above named certain proposals for revising the Rules so as to make the Scholarships available ~~for those who~~ for all candidates who have taken with credit a Degree in Arts, Medicine or Engineering and also to raise the age limit to 25 years

43 From the Dy Sec to Edn in Impore No 460/40 Dy 17/7/07.
Submits a copy of the Resolutions of the Committee on the points referred to in the above G.O and States with Reference to G.O No 7129-31/Edn 22-06-23 Dy the 16th February 1907 that no Notification calling for applications of the Scholarships of 1907 has yet been published and that early action is necessary in the matter.

X U

The abstract of the Committees Resolutions

Serial No

are given below — Only 4 members were present. The Committee agree to the following Suggestions

1 That the age limit may be raised to 25 years and even this limit may be relaxed in special cases.

2 In the case of Graduates in arts the Scholarships may be restricted to those ~~to~~ who have passed in Physics, Chemistry or Natural Science.

3 Candidates applying for Scholarships to study the Subjects mentioned under (3) Applications of Chemistry and Physics to Agriculture and allied subjects (4) ~~Medical Research~~ (5) Mechanical Engineering (6) Mining and Metallurgy ~~&~~ (7) Electrical Engineering (newly added), may be required to give proof of their fitness for practical work by going through a short period of probation in the respective Depts.

~~&~~ 4 That "Electrical Engineering" may be added as an addl. Subject (7) in the Rules

~~As to be~~ As regards the other Suggestions the Committee state (1)

Serial No

(1) That though ordinarily passing with credit should imply a pass in the 1st or 2nd class, yet the Committee may be given freedom to give special considerations to the merits of even a 3rd class graduate who has distinguished himself during his College Course notwithstanding his Comparatively low Rank in a public Examn which is at best a partial and sometimes an arbitrary test of a man's abilities.

(2) That Mr. D'Souza may be granted a Scholarship as Recommended so as to make a beginning in the way of granting Scholarships to natives of Mysore, which may prove a powerful incentive to Mysore Students to attain the Requisite Standard of qualification

3 That it does not appear to be clear that the field of Selection be extended to territories outside

Note—Contd sheet

Serial No

Mysore

The Committee also wrote the attention of Govt to their Suggestion contained in para 7 of their proceedings originally submitted for utilizing the accumulated Savings of the Fund for awarding other recommended Scholarships by Heads of Technical Depts.

The Secy has observed that the above Suggestion is not in Consonance with the Spirit of the Scheme Sanctioned in the G.O of the 3rd May 1906 for utilizing the proceeds of four fifths of the Fund (Vide this Note Supra page 4).

Regarding the D.G's suggestion for issuing a Notification calling for applications for the 2nd batch of Students to be sent abroad for study, it is submitted that a Notice has already been published in February 1907 (Vide Gazette put up) It is not clear why the D.G. states that no Notification

Government would be glad if the question could be remitted for consideration by a full Committee of all the members

Government are fully alive to the necessity for encouraging the natives of Mysore and they have been and are doing everything in their power to offer inducements in the shape of scholarships for their training in technical studies like Engineering, Medicine, and practical Engineering taught in the Victoria Technical Institute in Bombay

This is not the occasion for entering into a discussion of the political disabilities of the Mysore student What the Government wish to attain by offering the liberal scholarships provided by the Damodar Dass fund is the training of a few first class graduates of our Universities in the higher branches of Engineering and Chemistry, ~~and~~ Mining and Metallurgy so that they may be available for running the Electrical installations in the State and be useful in developing the mineral resources of the country for this purpose we want really first class men and if Mysore cannot produce them the Government is prepared to extend its field of selection

Regarding Resolution VI of the Committee, the Government order already makes provision for it

Government regret they cannot consider the case of others than graduates

NOTE Continued

Extract from the Proceedings of the 183 rd Meeting of the Council of His Highness the Maharaja, held at Mysore on the 14th October 1907

I Subject -(Clause of the Schedule)

Revision of the Rules for Purchasing Fellowships

O R D E R

The Council is of opinion that as recommended by the Committee the rules may be revised so as (i) to increase the limit of age for applicants to 25 years with power to Government to relax the age limit in the case of candidates showing very special aptitude for higher branches of Scientific study

(ii) to throw open the scholarships to all natives of India who are graduates of any recognized Univers-

giving a preference - where other things are equal - to natives of Mysore by birth or domicile,

(iii) to empower the Committee to test the candidates' aptitude for practical work in the manner best suited to each branch of study and to prescribe if necessary, a period of probation

The Council disagreeing with the Committee's recommendation thinks it necessary that in the case of graduates in arts (B A 's), a pass in the first or second class in the B A Degree Examination should be insisted on as a necessary qualification for selection

Sd/- V P Madhava Rao
Dewan of Mysore

Extract

C S Balasundaramayer
Offg Secretary to Government

Submitted to His Highness

In His Highness' Order dated the 7th June 1907 sanction was given to the Rules for the grant of the Damodar Dass Scholarships being reconsidered, with a view to their amendment on certain lines indicated by me His Highness was pleased to direct at the same time that the question of devising some arrangement for testing the suitability of the candidates for practical work should also be considered

The question of amending the rules was accordingly referred to a Committee consisting of the Members of the Committee appointed under G O No 431 dated the 18th July 1906 with the addition of Dr Lehmann Captain Traill and Mr Gibbs

D

The Committee met on the 16th July 1907 and submitted their recommendations to Government, but as only 4 out of the 8 members were present and both Capt Traill and Mr Gibbs who had been specially referred to in His Highness' order were absent, the matter was remitted to the Committee for consideration by all the Members

St no 43

The Committee met again on the 26th August

St no 45

1907

1907 but only 5 Members were present, Mr McIntosh Major Brockmann and Mr Gibbs being absent, and their further opinion has been received and considered by the Council The opinion of the Council is contained in the accompanying extract from the Council Proceedings

The final recommendations of the Committee and the opinion of the Council on these several recommendations are noted below --

(1) The Committee considers that the age limit may be raised to 25 years and that this may be even relaxed in special cases This is agreed to by the Council

(2) The Committee considers that in the case of Graduates in Arts the scholarships should be given only to those who have taken Physics, Chemistry or Natural Science as their optional subject This has already been approved of by the Council

(3) The Committee considers that while "passing with credit" should imply a pass in the First or Second Class freedom should be given to the Committee to consider the merits of even third class graduates who may have distinguished themselves in their College career The Council are not in favor of this relaxation

(4) The Committee considers that the scholarships may

be

be thrown open to all Indians who are graduates of Indian or other Universities, but that when the qualifications of the candidates are otherwise equal, preference should be given to those who are natives of Mysore by birth or domicile or who have taken a degree from a Mysore College This is agreed to by the Council

(5) The Committee agrees in the opinions already expressed by the Council that Electrical Engineering may be added as one of the subjects of study for which scholarships may be given

(6) As to testing the candidate's fitness for practical work the Committee considers that a training in the Public Works or Railway Workshop need not be insisted on but that the candidates may be required to give evidence of their fitness for practical work in any manner that the Committee may think desirable and to undergo any test or period of probation which the Committee may prescribe The Council are of opinion that this may be accepted

The recommendations of the Council as noted above may be approved

The Committee has also suggested that when one or more scholarships are not awarded under the rules,

the

the money thus available may be utilised for a arding other scholarships outside the scope of the rules to train young men of ability in some special branch of knowledge likely to be of use in a technical department of the State This matter will be further considered and submitted for orders in due course

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE

No 11 (Enc 8) *Bangalore* 1907

From

H J BHABHA ESQ M A

Inspector General of Education in Mysore – f o o
[illegible]

To

[illegible]
Secretary t [illegible] Government of [illegible] Mysore
[illegible] and [illegible] Departments [illegible]

SIR

R D8 With refe[illegible] [illegible] January 1907 [illegible] dated [illegible] 1907 and [illegible] dated 1 February 1907 I have the honour to [illegible] meeting of the Committee appointed to report on the merits of the applicants for [illegible] scholarships of 1907 held in the Office of the Inspector General of Education on [illegible] 1907. I submit herewith a copy of the Proceedings of the meeting and the Report of the Committee signed four members who attended the meeting

– The Committee recommend that Victor S D'Souza may be granted one of the two Mysore Government scholarships of 1907 [illegible] Academical year 1907-08 commencing from October 1907 to September 1909 [illegible] hardly of any use to study [illegible] unless it is done during the course of the year It will be quite necessary if the scholarship is granted and [illegible] the 1st October next The subject he wishes to study is practical Advanced Chemistry Inorganic and Organic [illegible] very comprehensive subject [illegible] course of two years [illegible] should [illegible] order [illegible] to [illegible] practical [illegible] branches

as may be of the greatest practical use in India this question be referred back to the Committee and Dr Hemmans should be associated with the Committee Chemical experts in Madras may also be consulted if necessary But whatever the advice obtained in India may be I would strongly recommend that the Mysore Government may request Sir William Ramsay Professor of Chemistry in University College London, to be so good as advise the scholar generally what branches to study to shape his course and recommend the best institutions in England where he can carry on his studies As far as I am aware he can hardly do better than study Chemistry in University College London especially if he be fortunate enough to be a pupil of Sir William Ramsay himself for a portion if not the whole of the period of study Dr Morris Travers Principal of Mr Tata's Institute of Science may also be consulted There is time to arrange all preliminaries before September

3 I return herewith the applications and all papers connected with the applications of H V Krishnaswami B A C S Paul B A H M Donne Victor D'Souza B A . The application of P Narayan has returned to the Principal of the Central College The applications of K G Belliappa and B K Ramaswami Iyengar who failed to pass in one subject of the B A Degree Examination are also returned herewith

I have the honour to be

Sir

Your most obedient servant

H J Bhabha

Inspector General

Proceedings of a meeting held in the Office of the Inspector General of Education at S A M on 20th March 1907 of the Committee appointed to report to Government on the merits of the applicant for Dadabhai Scholarships of 1906 by Order No 494-Ed 328-06-11 dated 18 July 1906

Present

Mr J Cook M A

Mr H J Bhabha M A

Captain N Bernard Dawes R E

Dr W F Sheets M A F R S

Absent

Major H F Drake Brockman I M S

Read the applications of H V Krishnaswami B A C S Paul B A H W A Donne and Victor S D'Souza B A

Resolved -

I That H V Krishnaswami B A be not selected first because he has failed to get cured of varicose veins by an operation as directed and secondly the Principal of the Central College does not give a satisfactory report of his abilities

II That the application of C S Paul be not considered as he was born in April 1880 and his age is now nearly 27 years

III That the application of H W Donne be not considered as he has passed only the Matriculation Examination of 1894 and his age is now 31 years

IV That Victor S D'Souza be recommended for one of the scholarships as he fulfils all the conditions prescribed by the Rules and in abilities and character is the best of the applicants

V That the Committee take this opportunity to submit

submit it for the consideration of Government whether the savings that may accumulate when one or more scholarships are not awarded may not be utilised for the special training in Europe of young men of good ability and character recommended by the Heads of Technical Departments such as the Medical Educational Engineering and Geological Departments with whose work they may be personally acquainted for the purpose of improving the technical work of the departments

Report of the Committee appointed by Government Notification No 4∂4 / Ed 3∂∂-05-11 dated 18th July 1∂0∂ on the merits of the applicants for Dadabhai Scholarships of 1∂0∂

*** * * * ** ** * * * *

A meeting of the Committee appointed by Notification No 4∂4 / Ed 3∂∂-0∂-11 dated 18th July 1∂0∂ to report on the merits of the candidates for the Dadabhai Scientific Research and Technical Scholarships of 1∂0∂ was held on ∂0th March 1∂07 in the Office of the Inspector General of Education A copy of the Resolutions passed at the meeting is appended hereto

2 Altogether seven applications were received of which those of K G Belliappa P I nuvan and B K Ramaswami Iyengar students of the Central College were withdrawn as they failed in one branch of the B A Degree Examination The applications of the remaining four candidates were considered by the Committee

3 The names and other particulars of the candidates whose applications were considered are as follow

Name	University Status	Age	Date of birth	Subject of study
H V Krishnaswamy	B A (Eng III Dec 03 Kan II class do Physics III Dec 04)	∂∂	27/0/1884	Weaving & Dyeing at the Leeds Universit
C S Paul	B A (Eng II class Dec 0∂ Kan III - do - do-04 Prysics III do-do-0∂)	∂0	14/4/188∂	Practical Advanced Chemistry
H M Donne	Matriculated 1894	31		Advanced Chemistry in its practical applications to the textile arts industries
Victor S D'Souza	B A (Eng II class Dec 0∂ Kan III -do- do- do Physics III ---do---→	20	∂0/4/188∂	Practical Advanced Chemistry

4 The Committee resolved not to recommend H V Krishnaswamy for selection first because he has failed to carry out the order of Government to get cured of varicose veins by an operation and secondly because the reports of his abilities are not satisfactory

5 The Committee were unable under the rules to consider the applications of C S Paul B A and H W Donne as the former was born in April 1880 and his age now is nearly 27, andthe latter has passed only the Matriculation Examination of 1894 and his age is 31 Mr Donne has been employed for the last ten years in the dyeing bleaching and finishing departments of the Carnatic and Buckingl Mills and is at present Finishing Master of the former Mills Messrs Binney and Co certify that " he has always taken an intelligent interest in his work and has a good knowledge of the technical processes of dyeing bleaching and finishing cotton goods ' But his general educational qualifications and his age are such that under the rules the Committee are unable to recommend him for a scholarship

6 Victor S D'Souza passed the B A Degree Examination of December 1900 in all the three Branches taking a Second Class in English and a third in the remaining subjects He will be 21 next month Mr Cook certifies that " he has been exemplary in his behaviour and is a young man of very good general abilities His optional subject for the B A Degree has been Physical Science and he has taken a most intelligent interest in Experimental Science generally and in the Laboratory work of the course He is likely to prove a very apt student in the Higher Branches of Practical Chemistry Mr Cook very strongly recommends his election to one of the Dadabhai Scholarships for the prosecution of Advanced Technical study of Chemistry in England The Committee have the pleasure to report that Victor S D'Souza satisfies all the conditions prescribed by the rules and is the best qualified and most

most promising of all the applicants and accordingly recommend that he may be granted one of the Damodardas Scholarships of 1900

7 The Committee would take this opportunity to submit for the consideration of Government whether the savings that may accumulate when one or more scholarships are not awarded may not be utilised for awarding other scholarships the object of which should be to train young men of ability in some special branch of knowledge likely to be of use in a technical Department of the State The Head of a technical department, like the Medical Educational Public works and Geological Departments, may feel the need of a specialist in some branch of his department and may at the same time be able to recommend for a scholarship a young man of ability working under him from personal knowledge of his abilities and character The occasional award of such scholarships from the savings would the Committee think greatly help to improve the work of a technical Department and bring it upto date

Proceedings of the Government of His Highness the Maharajah of Mysore

---

Draft approved by Dewan 6/7

Read —

Letter No 7188--C0E dated the 30th March 1907 from the Inspector-General of Education in Mysore submitting a copy of the proceedings of a meeting of the Committee appointed to report on the merits of applicants for the Damodar Dass scholarships and requesting that the Committee's recommendation to award one of the scholarships for the year 1906-07 to Victor S D'Souza B A may be approved

ORDER THEREON

No 301-8 Ed(22-6)-42 dated the 11th July 1907

Rule V of the rules for the grant of these scholarships requires that a candidate for a scholarship should

should have passed with credit a degree in Arts, Medicine or Engineering The candidate recommended by the Committee has passed the examination for the B A degree in Physics only in the 3rd class. He cannot be regarded as fulfilling the above condition The Government con-sider that for work in the higher branches of Chemistry, the subject which the candidate has elected to take up, a pass in the B A degree at least in the second class should be insisted upon In this view, the Government regret that the recommendation of the Committee in favour of the candidate cannot be sanctioned

2 It is disappointing that candidates with higher qualifications have not come forward to apply for these scholarships In order that can-didates may profit by pursuing their studies in the higher branches of sci-ence or of technical subjects, and be

of

of use to the country on their return the Government consider that none but candidates about whose aptitude for higher studies in the subjects chosen by them there is every assurance, should be selected The object of the Government is to select the very best material available, but there is reason to fear that the rules as they stand, restricting the grant of the scholar-ships to candidates who are not over 22 years and who are natives of the State by birth or domicile and have graduated from a College in Mysore, have greatly narrowed the field for selec-tion, and have operated to keep out candidates who would in other respects have been eligible It is therefore proposed to amend the rules for the grant of these scholarships on the lines indicated in the appendix and explained below The age limit should

be

be raised to 2o years, and should be relaxed in the case of candidates who have taken a high degree in a science subject and who show special aptitude for the higher branches of scientific and technical study including electrical engineering which should be added as a subject of study The scholarships should for some years at least, be open to all candidates who have taken with credit a degree in Arts, Medicine or Engineering in the Madras and Pombay Universities In the case of graduates in Arts their optional subject should have been Physics Chemistry or Natural Science, and they must have at least passed the B A degree examination in the 2nd class But when other qualifications are equal preference should be given to those who are natives of Mysore by birth or domicile or who have taken a degree from a Mysore College

12

3 The Government also consider that there should be some arrangement for testing the fitness of selected candidates for practical work such as by requiring them (as was once suggested in the case of candidates for the electrical Department) to undergo a period of probation in the local P W D or Railway workshop before they are sent abroad In the absence of some such test selected candidates may prove great failures

4 The rules as provisionally amended will be referred to a Committee consisting of the following gentlemen -

× Mr Hutchin, Chief Engineer
✓ Mr J Cook Principal, Central College, Bangalore
✓ Dr Drake Brockman, Senior Surgeon
× Mr W F Smeeth State Geologist
× Capt Graill, Superintending Engr
× Mr H P Gibbs, Chief Electrical Engineer
✓ Dr A Lehmann Agric chemist
✓ Mr H J Bhabha Inspector General of Education (Secretary to the Committee)

The Committee is requested to favor Government with their opinions and suggestions at a very early date

Secretary to Govt

13

To

The Inspector General of Education
The Principal Central College
The Senior Surgeon
The Chief Engineer
Capt Traill
r H P Gibbs
The Agricultural Chemist
The State Geologist

Appendix

For the present rules IV and V substitute the following -

Rule IV

A candidate for one of the scholarships must not be over 25 years of age

It will however be open to Government to relax the age limit in the case of candidates who have taken a high degree in a science subject and who show special aptitude for the higher branches of scientific and technical study When candidates are otherwise equal in merit preference will be given to a candidate who is a native of Mysore by birth or domicile or who has taken his degree from a Mysore College

Rule V

Candidates must have taken with credit a degree in Arts, Medicine or Engineering In the case of graduates in Arts their optional subject should have been Physics, Chemistry

or Natural Science, and they must have at least passed the B A degree examination in the second class in such subject

2 At the end of Rule IX add the following -

(7) Electrical Engineering

Inspector General of Education in Mysore

To

C S Balasundaram Iyer Esq BA,

Secretary to Government of H H,

the Maharaja of Mysore,

General and Revenue Depts

Bangalore.

SIR

With reference to Government Order No 301-8 Ed (22-06 4,2 dated 11th July 1907, I have the honour to inform you that a meeting of the Committee appointed by the above Order was held on 16th July 1907 to consider the proposed changes in the rules of the Damodardas scholarship - I submit herewith a copy of the resolutions passed at the meeting Messrs W Mc Hutchin, Dr W F Smeeth, Captain Traill and Mr H P Gibbs were absent from the meeting All the suggestions contained in the above named order were carefully considered by the members present

2

16

2 With reference to Government Order No. 7129-31 Edn. 22-06-23 dated 16th February 1907, I beg to invite the attention of Government to the fact that no notification calling for applications for the Damodardas scholarship of 1907 has yet been published. If a scholar has to be elected for 1907 applications should reach the Secretary on or before August 7, and the decision of Government should be arrived at early enough to enable the elected scholar to leave for England on or about September 1, so that he may have a few days' time in England before commencing his course from October 1, 1907.

I have the honour to be,
Sir,
Your most obedient servant,
H P Bhabha
Inspector General.

Proceedings of a meeting of the Committee appointed by Order No 201-3/Ed(22-36)-42 dated 11 July 1937 held on the 1o July 1937 at 8-30 A M in the Office of the Inspector General of Education

******* ****** ** *

Present

Mr J Cook M A

Major H.E Drake Brockman I M S

Dr A Lehmann B S A Ph D

Mr H J Bhabha M A Secretary

Resolved

I That though ordinarily 'passing with credit' should imply a pass in the First or Second Class the Committee is of opinion that freedom should be granted to it to give special consideration to the merits of even a third class graduate who has distinguished himself during his college career and whose work during a long period of years of study has shown to the authorities of his College his superior qualifications notwithstanding his comparatively low rank in a public examination which is at best a partial and sometimes arbitrary test of a man's abilities

II That in the opinion of the Committee if beginning is now made in the way of granting scholarships to natives of Mysore it will prove a powerful incentive to Mysore students to attain the requisite standard of qualification suggested by Government In view of this fact the Committee recommend that a start be made at once by award of one of the scholarships to Victor S D'Souza as being the best available candidate at present

III That it does not appear to the

18

the Committee to be fair that the field of selection be extended to territories outside Mysore seeing that similar scholarships in British India and other Native States are not open to natives of Mysore The Committee however is of opinion that in the interests of the State it would no doubt be highly desirable if reciprocity can be secured in the matter of such scholarships from British India and other Native States

IV That while the original age limit of 22 was based on the rules of the Government of India Scholar-ships which were suggested by the Government as a model to the Committee the Committee considers it highly desirable in awarding technical scholarships to raise the age limit to 25 and even to relax this limit in special cases

V That the Committee approves of Electrical Engineering as an additional subject (7) in rule IX which a scholarship holder may study

VI That in the event of the Damodardas Scholar-ships being thrown open to applicants from other parts of India preference be given to a candidate who is a native of Mysore by birth or domicile or who has taken his degree from a Mysore College when it happens that candidates are equal in other qualifications

This is already stated in the G.O

VII That in the case of applicants who are graduates in Arts the Committee approves of restricting the competition to those whose optional subject is Physics Chemistry or Natural Science

VIII That in the opinion of the Committee, candidates applying for scholarships with a view to study the subjects mentioned under(3) (b) (c)&(7) in Rule IX be required to give proof of their fitness

fitness for practical work by going through a short period of probation under the head of the technical department concerned

IX That the Committee would take this opportunity of inviting the attention of Government to the importance of the suggestion contained in para 7 of the Report of the Committee appointed by Government Notification No 494/Ed322-Oo-11 dated 18 July 19Oo The Report was submitted by the Inspector General of Education with his letter No 7183/608 dated 3O March 19O7 Para 7 of this Report is quoted below in extenso -

"The Committee would take this opportunity to submit it for the consideration of Government whether the savings that may accumulate when one or more scholarships are not awarded may not be utilised for awarding other scholarships the object of which should be to train young men of ability in some special branch of knowledge likely to be of use in a technical Department of the State The Head of a technical department like the Medical Educational Public works and Geological Departments may feel the need of a specialist in some branch of his department and may at the same time be able to recommend for a scholarship a young man of ability working under him from personal knowledge of his abilities and character The occasional award of such scholarships fro. the savings would the Committee think greatly help to improve the work of a technical Department and bring it up to date"

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE

No 773 Enclos 2 Bangalore 21st July 1907

From

H J BHABHA ESQ, In a,
Inspector General of Education in Mysore

To

C S Ba Cromedaraw Iyer Esq BA,
Offg Secretary to the Government of His
the Maharaja of Mysore
General and Revenue Depts,
Bangalore

SIR

In continuation of my letter No 460/440 of the 17th July 1907 forwarding a copy of the Resolutions of the Damodar Das Scholarships Committee, I have the honour to forward herewith a copy of each of the marginally noted letters, in which Mr Mc Hutchison, Chief Engineer and Mr WS Traill, Superintending Engineer Western Circle, express their views in regard to the grant of Scholarships from the Damodar Das Fund.

I have the honour to be,

Letter No 3402 of 16/7/1907 from the Superintending Engineer, Western Circle, to the Chief Engineer, with enclosures forwarded to the Inspector General of Education with the Chief Engineer's 5257 of 24-7-1907

Letter No 3477/1907 from the Superintending Engineer, Western Circle to the Inspector General of Education

Letter No 5256 of 24 7 07 from the Chief Engineer of Mysore to the Inspector General of Education in Mysore

Sir

With reference to Government Proceedings No 301 8/Ed (22 06)-42 dated the 11th instant- referring to the Committee appointed in para 4 thereof, the amended rules for regulating the grant of scholarships for Scientific Research and Technical Education from the Dasara Donations Funds for their opinions and suggestions I have the honour to inform you that in my opinion the rules as now amended will answer but that it seems necessary that the selected candidates should be sent to the local P W Departments or Railway Workshop to undergo a period of probation in order to their fitness for practical work being tested, as suggested in para 3 of the Government Order quoted above, nor is there any necessity to bind the candidates to serve the Government for a period of not less than 5 years on their return after completion of the Research Course or study, as now laid down in clause XIII of the existing Rules

I have &c

(Sd) W Mc Hutchin
Chief Engineer of Mysore

Inspector General

Letter No 8402 dated 16th July 1904 from Mr W S Trault RE, Superintending Engineer, Western Circle to Mr W Mc Hutchen M & C E, Chief Engineer in Mysore

---

Sir

Government Proceedings No 301-8 dated Ed(22-06)-42

11th instant forwarding for opinion amended rules for selection of candidates for Damodar Doss Scholarship

---

With reference to the above, I have the honour to inform you that I agree with the proposed amendments of the rules referred to in the above with regard to the suggestion in para 3 of the Government Order, I think practical work is necessary for men going in for Electrical Engineering, but I doubt if many graduates of 25 would tackle it, especially as at least one to two years' work as a fitter is desirable and this would make the man 27 before he began his higher study I would therefore not make practical work a sine qua non but leave it to the common sense of candidates

I have etc

Proceedings of the Government of His Highness the Maharaja of Mysore

Read -

Letter No 460/40 dated the 17th July 1907, from the Inspector General of Education in Mysore submitting copy of the Proceedings of a meeting of the Committee appointed in Government Order No 301-8/Edn 22-06-42 dated the 11th July 1907 for considering certain amendments proposed to be made in the rules for the grant of the Damodar Das Charity Scholarships for Scientific Research and Technical Education

2 Letter No 773/69 dated the 26th July 1907 from the same officer submitting the opinions of the Chief Engineer and Captain Traill on the revision of the rules referred to

--

Order thereon No 1163-70 Edn 22 06-44

Dated Bangalore the 7th August 1907

Government desire to have the opinion of the full Committee of all the members, especially as regards the proposed suggestions made and remit the matter for a

3 offs No 301-8 Dn 22 06-42 dt 11 July 07

further report after such consideration

2. Government are fully alive to the necessity for encouraging natives of Mysore and they have been and are doing everything in their power to offer inducements in the shape of scholarships, for their taking up technical & practical studies like Engineering, Medicine, Mechanical & Electrical Engineering, & Veterinary Science in Bombay and Madras Government do not desire to discuss the disabilities of Mysore Students with reference to scholarships offered in other parts of India What they ~~Government~~ wish to attain by offering the liberal scholarships provided by the Damadar Dass Fund is the training of a few select and capable graduates of Indian Universities in the higher branches of Engineering, Chemistry Mining and Metallurgy, so that they may be available for employment in the technical department of the State Such ~~running the Electrical Installations in the State~~ and be useful in developing the mineral resources of the country For this purpose really first class men are wanted and if Mysore cannot produce them, the

423

the Government are prepared to extend ~~its~~ their field of selection

3 Regarding resolution VI of the Committee on the desirability of giving preference ~~preference~~ to a Mysore student when ~~the~~ other qualifications of candidates are equal, Government observe that such a preference is distinctly provided for in the draft of the amended rules and in the Government Order of 11th July 1907

4 Government regret that they cannot consider the case of others than graduates

From

H J BHABHA ESQ. M A

Inspector General of Education in Mysore

To

C S Balasundaram Iyer Esq B A

Offg Secretary to the Covernment of H H the Maharaja

of Mysore General and Revenue Departments Bangalore

SIR

With reference to Government Order No 1103-70 / Ed 22-00 dated 7 August 1907 I have the honour to inform you that a meeting of the Committee appointed to consider the proposed modifications in the rules for the award of Damodardas scholarships was held in my office on 26 August 1907 A copy of the Proceedings of this meeting of the Committee is submitted herewith

2 The suggestions made in para 3 of Covernment Order No 301-8 / Ed 22-00-42 dated 11 July 1907 were carefully considered for a long time from every point of view The result of the Committee's deliberations is embodied in Resolutions I and II The Committee was clearly of opinion that the test of fitness for practical work need not necessarily be made by sending a candidate for a period of probation to the local D P W or Railway workshops It was best to leave the nature of the test and the manner of carrying it out to the judgment of the Committee who would consider the special circumstances of each case and when necessary make a candidate satisfy the Head of the Technical department in which he hoped

hoped to serve on the completion of his post-graduate course that he was fitted to do the practical work of such a course The feeling of the Committee was that it should be left free to choose in each case what test or period of probation it considered best under the circumstances The Committee was also of opinion that when a period of probation was prescribed by it before the final selection was made a maintenance scholarship of about Rs 25 a month should be granted to the candidate

3 With reference to the III Resolution the Committee was of opinion that if an applicant for a scholarship who was a native of India had obtained his degree at a British or foreign University, he should not be debarred from competing because he was not a graduate of an Indian University The Committee would throw open the scholarships to natives of India who have graduated in any recognised University

4 With reference to para 4 of Government Order No.1163-70 / Ed. 22-06 dated 7 August 1907 which states that Government can not consider the case of others than graduates, I beg to invite your attention to Resolution IX of the Committee passed at the meeting of 16 July 1907, and to express a hope that the restriction above stated will not apply to those who are selected for special scholarships by the Head of a Technical department for some special study. For instance, a young man who has a special aptitude may be selected for acquiring the knowledge of a particular industry like lacquer or glass or soap industry in Japan or elsewhere In such a case it may not be necessary that he should be a University graduate

I have the honour to be,

Sir

Your most obedient servant,

H J Bhabha

Resolved

I That Resolution VIII passed at the last meeting of the Committee held on the 16th July 1907 may be modified as follows -

" VIII That in the opinion of the Committee candidates applying for scholarships be required to give evidence of their probable fitness for practical work in any manner that the Committee may think desirable

II That the Committee are of opinion that Rule VII for regulating the award of Damodardas Scholarships published in Notification G 5420 G M 113-06-3 dated 3 May 1906 may be modified by the addition of the following words - ' Candidates shall be required to satisfy the Committee as to their probable fitness for practical work in any manner that the Committee may think desirable and may be required before they are finally selected to undergo any test or period of probation which the Committee may think proper "

III That in the opinion of the Committee there can be no doubt tha by extending the field of selection to Indian Graduates of all Universities in India better candidates will be secured than by restricting the choice to graduates who are Mysoreans by birth or domicile and have

have passed from a Mysore College The Committee would even recommend that the field of selection may be extended to Indian graduates of any recognised University

for considering and submitting a report
about revising the rules in certain
respects

3 Correspondence ending with letter
No 2315/160 dated th 17th Septr 1907
from the Inspector General of Education
in Mysore and Secretary to the Committee
for the Damodar Dass Charity Scholarship
submitting a copy of the Resolutions of
the Committee in regard to the revision

of the rules referred to

- - - - --

Order thereon -No 5421-6 Edn 22-06-46

Dated Bangalore, 10th December 1907

- - - --

It has been found that the rules for the selection of Candidates for scholarships laid down in the Govt Order of May 1906 are defective and have failed to attract the right sort of ~~suitable~~ young men, who give promise of making a good use of the apportunities afforded by the scholarships for advanced scientific and technical study in Europe, America or Japan The Govt of H H the Maharaja of Mysore are therefore pleased to direct that the rules be modified in certain respects as shown below -

(1) That the present age limit of 22 years be raised to 25 years and that this limit ~~be even~~ might be relaxed by Govt in special cases, such as in the cases of candidates who have specially

distinguished themselves in their University career and show very special aptitude for the higher branches of scientific and technical study

(2) That in the case of Graduates in Arts, the scholarships be given to only to those who have taken Physics, Chemistry or Natural Science as their optional subject

(3) That the scholarships be thrown open to all ~~Native~~ Indians who are Graduates of Indian or other Universities but that when the qualifications of the candidates are otherwise equal preference ~~shall~~ be given to those candidates who are Natives of Mysore by birth or domicile or who have taken a degree from a Mysore College

(4) That Electrical Engineering be added as one of the subjects of study for which the scholarships may be given, and

(5) That the candidates for these scholarships be required to give evidence of their fitness for pratical work in any manner that the Committee may think desirable and to undergo any test or period of probation which the Committee may prescribe

2 The rules as above revised will be

published in the Mysore Gazette

3 As regards the condition in the existing rules, viz, that candidates for the scholarships must have passed with credit a degree in Arts, Medicine or Engineering in an Indian University Govt direct that passing with credit should mean a passing in the First or Second Class in the Degree Examination

4 The Committee's suggestion that when one or more scholarships are not awarded in any year, the savings thus available may be utilized for awarding scholarships outside the scope of the rules to train young men of ability in some special branch of knowledge likely to be of use in some Technical Deptt of the State will be separately dealt with

Dated Bangalore 12th December 1907

The Government of His Highness the Maharaja of Mysore are pleased to prescribe the following rules for regulating the grant of scholarships for Scientific Research and Technical Education from the Damodar Dass Charities Fund in supersession of the rules issued under Government Notification No G 40—G M 113 05 dated the 3rd May 1906 —

RULES

I With a view to encourage and promote Scientific Research and Technical Education among the people of Mysore His Highness the Maharaja of Mysore has been pleased to sanction the following scholarships which shall be paid from two fifths of the annual proceeds of the Damodar Dass Charities Fund

II The scholarships will be known as the Mysore Government Damodar Dass Scientific Research and Technical Education Scholarships

III There will be ordinarily two scholarships assigned annually and each will be tenable for two years or such other period as may be fixed by the Mysore Government with reference to the subject of research or of education selected and the holder of the scholarship shall study in such University or College or Institution in England or elsewhere as shall be decided from time to time by the Mysore Government

IV A candidate for one of the scholarships must not be over 25 years of age It will however be open to Government to relax the age limit in special cases such as in the case of candidates who have specially distinguished themselves in their University career and who show very special aptitude for the higher branches of Scientific and Technical Study

V The scholarships shall be open to all Indians who have taken with credit a degree in Arts Medicine or Engineering in an Indian or other recognized University provided that when qualifications of the candidates are otherwise equal preference shall be given to those candidates who are natives of Mysore by birth or domicile or who have taken a degree from a Mysore College In the case of Graduates in Arts their optional subject should have been Physics Chemistry or Natural Science

VI Each candidate must forward with his application—

i A satisfactory certificate of birth or domicile

ii A declaration that he has the consent of the head of his family to proceed to England or elsewhere for the purpose of the scholarship

iii Certificates of good character from two persons (not relations of the candidate) of respectability and good position in addition to the one from the Head of the College where he was educated for the degree in Arts Medicine or Engineering

iv A certificate of physical fitness to undergo the course of study or research which he will have to follow in England or elsewhere signed by the Senior Surgeon of the Government of Mysore or a Medical Officer not below the rank of a District Civil Surgeon

v A statement of the course of study or research which he desires to pursue with testimonials as to his educational qualifications for such course

VII Applications shall be addressed to the Secretary to the Government of Mysore in the General and Revenue Department and the selection of candidates will be made by the Government after the receipt of a report from a Committee appointed by the Government to report on the merits of the candidates

The candidates may be required by the Committee to give evidence of their fitness for practical work in any manner that the Committee may think desirable and to undergo any test or period of probation which the Committee may prescribe A suitable subsistence allowance will be granted during such period of probation

VIII Each candidate selected will be given travelling allowance 2nd class rail and steamer fares to England or elsewhere from Bangalore and a similar allowance for travelling expenses back to Bangalore on the completion of his course of study or research He will further be allowed during his stay in England or elsewhere outside India a sum of £ 00 per annum payable quarterly in advance this allowance to be inclusive of College and examination fees cost of books instruments and boarding charges If the Institution selected by Government for the prosecution by the candidate of his study or research is in India or Japan the allowance will be Rs 100 per mensem

IX The subjects which the scholarship holder shall study will be one or more of the following —

(1) Chemistry

(2) Physics

(3) Applications of Chemistry or Physics to agriculture and to the various Arts and Industries likely to be of greatest benefit to the Mysore Country—such as dyeing the extraction purification and testing of sandal and other indigenous oils soap

and candle making glass making paper making match making photo mechanical printing sugar refining tanning textile industries

(4) Medical research especially in hygiene and bacteriology

(5) Mechanical Engineering

(6) Mining and Metallurgy including electro metallurgy

(7) Electrical Engineering

X Each candidate selected unless otherwise directed by Government shall within such period as may be fixed by Government proceed to England or elsewhere and on arrival there present himself before Messrs Coutts & Co Strand London or any other person or persons named by Government to whom will be paid the amount of the scholarship for the first quarter He shall then without unnecessary delay proceed to and join the Institution selected or approved by Government for the purpose and there continue his study or research with all diligence

XI The continuance of the scholarship to the holder will be strictly dependent on good conduct and will be conditional on satisfactory progress being made in his study or research as certified in a half yearly report to be sent to Government by the Head of the Institution he attends The stipend of the scholarship for each subsequent quarter will be paid only on a bill countersigned by the Head of the Institution and a certificate that the student is in regular attendance at the Institution and that his conduct and progress are satisfactory

XII The scholarship will be forfeited by the holder thereof—not being disabled by illness or prevented by any other cause which the Government may consider sufficient—fail to complete the course of study or research prescribed or is unfavourably reported on by the Head of the Institution No return passage will in such case be paid

XIII A candidate selected shall before proceeding to England or elsewhere enter into a bond with the Mysore Government stipulating that he accepts the scholarship on the conditions specified in these rules that he will prosecute the study or research with all due diligence and that on completion of such study or research course he shall return to Mysore and shall if called upon to do so serve the Mysore Government for a period of not less than five years If he fails to fulfil any of these conditions he shall return to the Government the total amount received by him for passage money and scholarship

XIV The date within which applications shall be submitted and the subject or subjects of study and research selected annually by Government shall be notified in the Mysore Government Gazette not less than six months previously

By Order

RULES

I With a view to encouraging and promoting Scientific Research and Technical Education among the people of Mysore His Highness the Maharaja of Mysore has been pleased to sanction the following scholarships which shall be paid from four fifths of the annual proceeds of the Damodar Dass Charities Fund

II The scholarships will be known as the Mysore Government Damodar Dass Scientific Research and Technical Education Scholarship

III There will be ordinarily two scholarships assigned annually and each will be tenable for two years or such other period as may be fixed by the Mysore Government with reference to the subject of research or of education selected and the holder of the scholarship shall study in such University or College or Institution in England or elsewhere as shall be decided from time to time by the Mysore Government

IV A candidate for one of the scholarships must not be over 25 years of age It will however be open to Govt to relax the age limit in special cases such as in the case of candidates who have specially distinguished themselves in their University career and who show very special aptitude for the higher branches of scientific and technical study

V The scholarships shall be open to all Indians who have taken with credit a degree in Arts Medicine or Engineering in an Indian or other Recognized University provided that when qualifications of the candidates are otherwise equal preference shall be given to those candidates who are Natives of Mysore by birth or domicile or who have taken a degree from a Mysore College In the case of Graduates in Arts their optional subject should have been Physics, Chemistry or Natural Science

VI Each candidate must forward with his application

i A satisfactory certificate of birth or domicile

ii A declaration that he has the consent of the head of his family to proceed to England or elsewhere for the purpose of this scholarship

iii Certificates of good character from two persons (not relations of the candidate) of respectability and good position in addition to the one from the Head of the College where he was educated for the degree in Arts Medicine or Engineering

iv A certificate of physical fitness to undergo the course of study or research which he will have to follow in England or elsewhere signed by the Senior Surgeon of the Government of Mysore or a Medical Officer not below the rank of a District Civil Surgeon

v A statement of the course of study or research which he desires to pursue with testimonials as to his educational qualifications for such course

VII Applications shall be addressed to the Secretary to the Government of Mysore in the General and Revenue Department and the selection of candidates will be made by the Government after the receipt of a report from a Committee appointed by the Government to report on the merits of the candidates

The candidates may be required by the Committee to give evidence of their fitness for practical work in any manner that the Committee may think desirable and to undergo any test or period of probation which the Committee may prescribe A suitable subsistence allowance will be granted during such period of probation

VIII Each candidate selected will be given travelling allowance 2nd class rail and steamer fares to England or elsewhere from Bangalore and a similar allowance for travelling expenses back to Bangalore on the completion of his course of study or research He will further be allowed during his stay in England or elsewhere outside India a sum of £200 per annum payable quarterly in advance this allowance to be inclusive of College and examination fees cost of books instrument and boarding charges If the Institution selected by Government for the prosecution by the candidate of his study research is in India or Japan the allowance will be Rs 100 per mensem

43

IX The subjects which the scholarship holder shall study will be one or more of the following —

(1) Chemistry

(2) Physics

(3) Applications of Chemistry or Physics to agriculture and to the various Arts and Industries likely to be of greatest benefit to the Mysore Country – such as dyeing the extraction purification and testing of sandal and other indigenous oils soap

and candle making glass making paper making match making pl to mecha nical printing sugar refining tanning textile industries

(4) Medical research specially in hygiene and bacteriology

(5) Mechanical Engineering

(6) Mining and Metallurgy coal dust electro metallurgy

(7) Electrical Engineering

X Every candidate selected under these rules shall within such period as may be fixed by Government proceed to England or elsewhere and on arrival there present himself before Messrs Cox & Co Strand London or any other person or persons named by Government who will pay him the amount of the scholarship for the first quarter He shall then with the necessary delay proceed to and join the Institution selected or approved by Government for the purpose and there continue his study or research with all due diligence

XI The continuance of the scholarship to the holder will be strictly dependent on good conduct and will be conditional on satisfactory progress being made in his study or research as certified in a half yearly report to be sent to Government by the Head of the Institution he attends The grant of the scholarship for each subsequent quarter will be paid only on a bill countersigned by the Head of the Institution and a certificate that the student is in regular attendance at the Institution and that his conduct and progress are satisfactory

XII The scholarship will be forfeited if the holder thereof—not being disabled by illness or prevented by any other cause which the Government may consider sufficient—fail to complete the course of study or research prescribed or is unfavourably reported on by the Head of the Institution Normal turn passage will in such case be paid

XIII A candidate selected shall before proceeding to England or elsewhere enter into a bond with the Mysore Government stipulating that he accepts the scholarship on the conditions specified in these rules that he will prosecute the study or research with all due diligence and that on completion of such study or research course he shall return to Mysore and shall if called upon to do so serve the Mysore Government for a period of not less than five years If he fails to fulfil any of these conditions he shall return to the Government the total amount received by him for passage money and scholarship

XIV The date with which applications shall be submitted and the subject or subjects of study and research selected annually by Government shall be notified in the Mysore Government Gazette not less than six months previously
